**Dämpfungsrosseln zur Einschaltstrombegrenzung von
 Mittelspannungskondensatoren**
*Damping reactors for limiting the inrush currents
 of medium voltage capacitors*

Netzspannung Rated voltage	U_N : _____ V	<input type="checkbox"/> L-L	<input type="checkbox"/> L-N	<input type="checkbox"/> 3~	<input type="checkbox"/> 1~
--------------------------------------	-----------------	------------------------------	------------------------------	-----------------------------	-----------------------------

Netzfrequenz Rated frequency	<input type="checkbox"/> 50 Hz	<input type="checkbox"/> 60 Hz
--	--------------------------------	--------------------------------

Induktivität Rated inductance	L_N = _____ mH
---	------------------

Dauerstrom Rated continuous current	I_N = _____ A
---	-----------------

Einschaltstrom Rated inrush current	I_{IN} = _____ A _{peak}
---	------------------------------------

Einschaltresonanzfrequenz Inrush current resonant frequency	f_{IN} = _____ Hz
---	---------------------

Umgebungstemperatur Ambient temperature	<input type="checkbox"/> 40°C	<input type="checkbox"/> _____ °C
---	-------------------------------	-----------------------------------

Aufstellhöhe üNN Altitude M.S.L.	<input type="checkbox"/> ≤ 1000 m	<input type="checkbox"/> _____ m
--	-----------------------------------	----------------------------------

Schutzart System of protection	<input checked="" type="checkbox"/> IP00
--	--

Zwangsbelüftung Forced ventilation	<input type="checkbox"/> keine none	<input type="checkbox"/> _____ m/s
--	--	------------------------------------

Temperaturklasse Temperature class	<input type="checkbox"/> keine Vorgabe no data	<input type="checkbox"/> B	<input type="checkbox"/> F	<input type="checkbox"/> _____
--	---	----------------------------	----------------------------	--------------------------------

Bemessungs Steh-Blitzstossspannung und Kurzzeit-Stehwechselfspannung Rated lightning impulse withstand voltage and separate source AC withstand voltage	<input type="checkbox"/> keine Vorgabe no data	<input type="checkbox"/> LI / AC : _____ / _____ kV
---	---	---
