Reactor Technology at Its Best

Anfrageformular Request form

Glättungsdrosseln Smoothing reactors

Netzgleichspannung Rated d.c. voltage	U _{DN} : _____ V
---	---------------------------

Differentielle Nenninduktivität bei Gleichstrom Rated incremental inductance with d.c. current	L _{dN1} = _____ mH	bei with	I _{dN1} = _____ A
	L _{dN2} = _____ mH	bei with	I _{dN2} = _____ A
	L _{dN3} = _____ mH	bei with	I _{dN3} = _____ A

Dauergleichstrom Rated continuous d.c. current	I _{dth} = _____ A
--	----------------------------

Oberschwingungsströme Harmonic currents	I _{h1} (_____ Hz) = _____ ARMS
	I _{h2} (_____ Hz) = _____ ARMS
	I _{h3} (_____ Hz) = _____ ARMS

Umgebungstemperatur Ambient temperature	<input type="checkbox"/> 40°C	<input type="checkbox"/> _____ °C
---	-------------------------------	-----------------------------------

Aufstellhöhe üNN Altitude M.S.L.	<input type="checkbox"/> ≤ 1000 m	<input type="checkbox"/> _____ m
--	-----------------------------------	----------------------------------

Schutzart System of protection	<input type="checkbox"/> IP00	<input type="checkbox"/> IP _____
--	-------------------------------	-----------------------------------

Zwangsbelüftung Forced ventilation	<input type="checkbox"/> keine none	<input type="checkbox"/> _____ m/s
--	--	------------------------------------

Temperaturklasse Temperature class	<input type="checkbox"/> keine Vorgabe no data	<input type="checkbox"/> B	<input type="checkbox"/> F	<input type="checkbox"/> H	<input type="checkbox"/> _____
--	---	----------------------------	----------------------------	----------------------------	--------------------------------
